MC01

CONTRA-ANGLES

AN INVESTMENT THAT LASTS OVER TIME

The contra-angles of the **MC01** series are **ergonomic, functional** and built with high quality materials to last over time. Manufactured according to the **highest quality standards**, they ensure maximum **operational efficiency**, protecting your investment.

RELIABLE AND GUARANTEED FOR 18 MONTHS, the models of the MC01 series feature state-of-the-art solutions, such as ceramic ball bearings (available on contra-angle MC01 RL only) and stainless steel heads.

MAXIMUM PRECISION AND QUICK CLEANING, thanks to the anti-slip material coated surface and the shape without edges.

THE MC01 OFFERS AS MANY AS 3 MODELS of contra-angles with different gear ratios. Perfect lighting thanks to the high quality glass rod light conductor.

TECHNOLOGY AND DESIGN

MC01 RL

TRANSMISSION 1:5
Fast and precise working thanks to the small head, spindle and ceramic ball bearings.
Best reliability thanks to internally conducted spray water and air, 3-hole spray, and replaceable water filter.

MC01 GL

TRANSMISSION 5,4:1
Efficient with single spray and internally conducted spray water and spray air.
Efficient access thanks to the small head.

MC01 BL

TRANSMISSION 1:1
Efficient with single spray and internally conducted spray water and spray air.
Efficient access thanks to the small head.

HEAD SIZE
Improved treatment efficiency and accessibility thanks to the small standard head size.

GRIP
Fast cleaning and efficient grip thanks to the anti-slip surface and the smooth shape without edges.

COOLING
The 3-hole spray (available on contra-angle MC01 RL only) ensures a perfect spray and the instrument to be always optimally cooled - right up to the bur tip.

EASE OF USE
Reliable and handy; with a retention power of up to 30 Newton, the pushbutton chuck system holds the bur securely in place, thereby facilitating complete ease of use.

SERVICE LIFE
The ceramic ball bearings (available on contra-angle MC01 RL only) guarantee a long service life and excellent, vibration-free operation.

SPRAY-MICROFILTER
Always ready to use thanks to the replaceable spray microfilter (available on contra-angle MC01 RL only).

TECHNICAL FEATURES FOR ALL MODELS

- LIGHTWEIGHT
- SMALL HEAD MADE OF STAINLESS STEEL
- VERY LOW RETRACTION EFFECT
- ANTI-SLIP AND EXTRA-RESISTANT SURFACE
- STERILISABLE UP TO 135 °C (275 °F)
- WASHABLE WITH THERMO-DISINFECTOR
- 18-MONTH WARRANTY
