DENTAL TURBINE

MT02L

SOLIDITY, SAFETY AND EFFICIENCY

FARO

EXPERIENCE AND INNOVATION
SINCE 1948

M92051111_rev4_ENG

MT02L SAFE AND RELIABLE, FOR BOTH YOU AND YOUR PATIENTS.

DENTAL TURBINE

COOLING SYSTEM WITH 4-SPRAY.

Equipped with 4-spray which ensures optimum cooling of the instrument, **MT02 L** guarantee **maximum protection of the dental tissues**.

25.000 LUX FOR MUCH EASIER OPERATION.

Thanks to the fibre optic glass rod that outputs **25.000 LUX** on bur's edge, **MT02 L** provides **centred and streakfree lighting of the surgical area** and reliable detection of preparation edges.

TECHNOLOGY AND DESIGN

MT02 L

- Head diameter: 12,5 mm
- Head height: 14,5 mm
- Power: approx. 26 Watt at 3,0 bar
- Spray: with 4 jets
- Fibre optic glass rod: up to 25,000 LUX
- Clamping force: 30 N

WARRANTY 12 MONTHS

QUICK COUPLING QC02 LED

- Optional
- code 0055501
- non-return valve (spray water)

WARRANTY 12 MONTHS

HEAD

The **small size of the head** ensures safe and easy access to all sections of the oral cavity.

ROTOR

The use of rotors with ceramic ball bearings and the carbide guiding bush increase durability and longevity.

CLAMPING SYSTEM

The pushbutton clamping system with clamping force up to 30N for secure hold of the bur and increased safety.

ERGONOMICS

Very easy to handle and clean thanks to its ergonomic shape that optimizes hygiene procedures.

TECHNICAL FEATURES

- HIGH POWER UP TO 26 WATT
- SILENT AND ACCURATE OPERATION
- CERAMIC BALL BEARINGS
- AUTOCLAVABLE UP TO 135° C AND WASHABLE WITH THERMO-DISINFECTOR
