LINDA

ULTRASONIC CLEANER

FARO

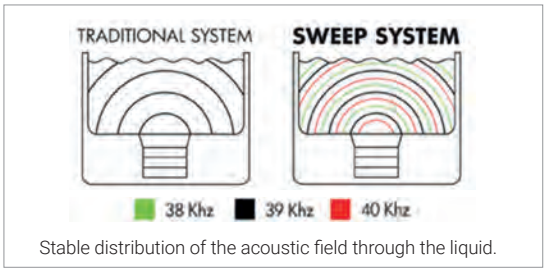
EXPERIENCE AND INNOVATION
SINCE 1948

LINDA
ULTRASONIC CLEANER

LINDA is the new FARO ultrasonic cleaner that guaranteesa **secure** and **effective** wash, obtaining in a short time a deep clean even in those areas difficult to reach manually.
LINDA is equipped with a brand new generator that incorporates a special ultrasonic oscillator with **Sweep System technology** that allows to
- reduce washing times;
- prevent damage to delicate parts;
- improve cleaning results.

SWEEP SYSTEM

The Sweep System technology generates a variable oscillation of ultrasound frequencies between 38 and 40 kHz; ultrasonic waves are therefore evenly distributed to achieve even more uniform cleaning.



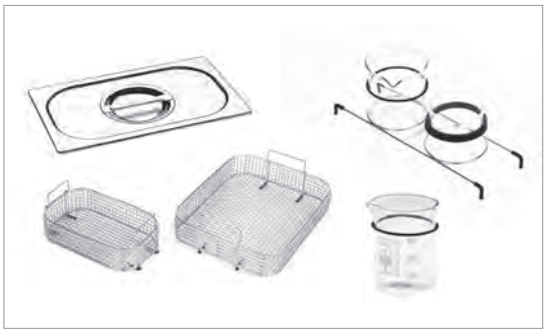
Stable distribution of the acoustic field through the liquid.

EASY TO USE

The presence of the **timer** (which allows to program the treatment time up to 15 minutes) and the thermostat **heating to 60°C** make **LINDA** clear and easy to use.

ACCESSORIES AND AVAILABILITY

Available in **3 and 6-litre** versions, both in stainless steel with standard drain and tap,
LINDA is equipped as standard with:
- a cover in stainless steel;
- a rectangular instrument basket in electro-polished stainlesssteel wire mesh;
- a glass-holder support in electro-polished stainless steel wire mesh;
- 2 glasses with support ring.



TECHNICAL FEATURES

TECHNICAL CHARACTERISTICS*	LINDA 3	LINDA 6
MODEL	SONICA 2200MHD S3	SONICA 3200MH S3
POWER SUPPLY VOLTAGE	230/240 V - 50/60 Hz	230/240 V - 50/60 Hz
AVERAGE POWER CONSUMPTION/ WITH HEATING	130 W/305W	180 W/355W
EXTERNAL DIMENSIONS	270 x 170 x 260 mm (LxPxH)	325 x 270 x 260 mm (LxPxH)
INTERNAL TANK DIMENSIONS	270 x 140 x 100 mm (LxPxH)	300 x 240 x 100 mm (LxPxH)
WEIGHT	3,5 kg	4,3 kg
TANK CAPACITY	3 l	6 l
ULTRASONIC FREQUENCY	40 kHz +/- 5%	40 kHz +/- 5%

Class 1 Medical Device, Insulation Class 1
*The technical data given represent typical values subject to tolerance

CE
Medical Device compliant to Directive 93/42/CEE

M92001520_rev.02_ENG
